SuperDel

SuperDel is an app that aims to make grocery shopping **easy** and **accessible** to anyone, anywhere.

BUYER PERSONA

"I don't have time to go grocery shopping because I am almost always busy coding. I also want to send groceries to my family using my phone."

PROFILE

Name: John
Age: 29 years old
Gender: Male
Location: Tokyo, Japan
Job: Automotive engineer

WHAT HE IS LOOKING FOR

Smartphone app

Any location

Fast and easy

Delivery

MOST USED TECHNOLOGIES

DEMO

TECHNOLOGIES USED

Rakuten
Rapid API

PostgreSQL

Express JS

npm axios

Vue.js

Bootstrap

API's Used

TWILIO

TWILIO SMS Messaging API

GOOGLE MAPS

Google Maps API for localization

Future features:

DAY 1 - DAY 2

TEAM SET-UP AND TASKS

DAY 3 - DAY 4

Launch MVP and deploy

- Online payment
- Japanese Language Support
- Barcode Scanning
- Driver Location
- Mobile App

FEEDBACK FOR *RAKUTEN RAPIDAPI MARKETPLACE*

Feedback 1

Feedback

A way to filter/sort results from the RapidAPI MarketPlace

Suggestions

Have a tab where filtering/sorting through items is possible since some search keywords brings a lot of results

Feedback 2

Manage the recommended APIs to ensure they are functional

Remove APIs that are not functional from the marketplace

Discover
